

Announcing an Amazing, New Way to Have a Steady Stream of Prospects Come into Your Weight-loss Clinic

OFFER A FREE \$300 3D BODY FAT SCAN

The secret to the direct sales business is lead generation and a constant flow of qualified prospects coming into your office for a free no-obligation consultation. Experience has shown a staggering 94% of those prospects sign up for our medical treatment plan. With a short-term residual value of over \$5,000 in net profit per patient, the stakes are extremely high.

Doctor's Medical Clinic now offers the ULTIMATE "Unique Selling Proposition" to make your clinic stand out from the competition – including weight loss clinics, fitness centers, med spas and online suppliers.

TESTED, PROVEN AND READY TO GO!

The scan takes 35 seconds and measures a patient's body fat and BMI, then a printed report is produced 45 seconds later. The fully-clothed patient steps on a rotating turntable, which pans and zooms 20 different angles, and checks body weight, composition, body fat percentage and bone density. The cost charged for a scan varies around the country from \$80 to \$300, and is usually sold in packages of monthly scans.

HOW IT WORKS FOR YOU

Our clinics now offer a FREE scan as part of our free, no-obligation consultation to learn more about our weight loss medical treatment. As long as patients stay on our medication, they come into your office for a free monthly scan when they pick up their med supply and weigh in. They'll see not just pounds lost, but also inches lost and can compare results from previous scans.

The unit lists for under \$10,000 and includes an infrared camera tower, revolving turntable and tablet. Custom software is available for a nominal monthly cost. The combined units weigh just 27 pounds and come with canvas carrying cases for easy transport to fitness expos, home shows, flea markets and other high-traffic events. Free scans can be offered at the booth for patients who book office consultations. The factory offers \$0 down financing with \$0 payments for 90 days and 0% APR. We have negotiated special wholesale factory-direct prices for our partners.
